Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

An amendment of 9/10/07 amended claims 1, 3-8 and 10, canceled claims 2, 9 and 11-13, and added new claims 14 and 15.

Claims examined on the merits are 1, 3-8, 10, 14 and 15, which
5 are all claims in the application.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C.
112:

10 The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

15 Claims 1, 3-8, 10, 14 and 15 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time
20 the application was filed, had possession of the claimed invention.

Support is not found in the specification for fibers accumulated in "disorder" as required in line 10 of claim 1, and for alternatives of "fused or fixed" and "crossing points or contacting points, in lines 13-14 of the claim.

25 Support is not found in the specification for the alternatives of "crossing points or contacting points" in line 7 of claim 10 and "fused to or fixed to each other" in line 8 of the claim, and for fibers being fused or fixed to an artificial root or joint when the

Art Unit: 1657

root or joint is not made of titanium or titanium alloy as in line 8 of the claim.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C.

5 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

10 Claims 1, 3-8, 10, 14 and 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

15 Claim 1 is unclear as to the fiber fixed at the periphery in line 4 to the layer of fibers in line 10. Further confusion results from fibers being required in line 10 and a fiber being required in line 4.

In line 10, "disorder" is relative and subjective and uncertain as to meaning and scope.

20 Requiring alternatives of "crossing points or contacting points" and "fixed or fused" where required in the claims is confusing since it is not seen how one alternative can exist without the other.

25 In line 3 of claims 6 and 8, it would be uncertain as to structure that would be an embedding part since where it is embedded is not specified. Additionally, it is not seen how the embedding part can be fixed to the layer of claim 1 since in claim 1 fibers of the layer are fixed or fused to the implant.

Art Unit: 1657

Claim 10 is unclear by reciting "bring together" in line 5, and in reciting alternatives of "crossing points or contacting points" or "fused to or fixed to" where one alternative cannot exist without the other. The claim is further unclear by failing to set forth clear, distinct and positive process steps.

Conclusion

The claims are free of the prior art.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE**
10 **FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date
15 of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,
20 however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
